

## BE SMALL, BUT WORK LIKE THE BIG BOYS

**Singapore, March 26, 2008** – Beach Culture@WaterCross is a well-known restaurant for its view of the beach and its glass architecture. Beside this restaurant, there are other two F&B businesses Mr. Raymond Png runs.

Imagine the number of meetings to keep up with, the amount of documents to organize, share & archive for a busy director.

Everything changes when he came to know about OurOfficePortal™, a free web portal solution designed & developed by local I.T. consultancy firm, Doric Solutions.

Nine modules in a suite, the portal is created to improve small office productivity with organizing and sharing capabilities. Some of the main modules include calendar, contacts and handbooks.

“OurOfficePortal is a very useful tool for working especially in a SME organization. It has been a very good way for all my outlets management staffs to communicate and keep update at the very minute...” said Mr. Raymond Png, Director of Beach Culture Pte Ltd.

The portal is considered easy for the non-tech savvy Mr. Png.

While portal systems are usually only affordable by the bigger companies due to their price tags, OurOfficePortal™ offers a free version that aims to improve small businesses office productivity without any financial considerations.

“We genuinely hope that this will allow SMEs to leverage on technology to work smarter internally, giving them a competitive edge similar to their larger counterparts,” said Mr. Lester Neo, chief consultant of Doric Solutions.

### About OurOfficePortal

OurOfficePortal™ is a business productivity application that brings people to the same virtual workspace everyday wherever they are. Business benefits from people working together on a common platform with real time information. Time, contacts, tasks and files are effectively managed, freeing time and resources for core business activities.

In a nutshell, OurOfficePortal™ is designed & built to boost small business office productivity.

OurOfficePortal™ FREE offers 10 user accounts and 1 GB disk space, worth S\$1,200 a year.
